REMARKS

In response to the NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION dated July 8, 2004 (the “Notice”), Applicants submit respectfully the following.

Applicants request respectfully that the two compact discs submitted previously in this application, and noted in the Notice, be disregarded. Inasmuch as the discs are to be disregarded, Applicants submit respectfully that the objections made in regard to the discs have been rendered moot. Applicants will not amend the specification to make specific reference to the discs or to describe their content, nor will Applicants file substitute or replacement discs.

Applicants submit herewith a paper Sequence Listing, and Applicants request respectfully that the present Sequence Listing be considered identical with the Sequence Listing entered in the present application’s parent application, Application Number 10/073,256, filed February 13, 2002, now abandoned. In lieu of a new Computer Readable Format (CRF), Applicants request respectfully that the CRF entered in the afore-mentioned application be used instead. A photocopy of the diskette provided as the CRF in that application is attached hereto as Exhibit A. Applicants state that the Sequence Listing content of the paper copy submitted herewith and the CRF of Application No. 10/073,256 are the same. Furthermore, Applicants state that the Sequence Listing information recorded in computer readable form is identical to the written Sequence Listing submitted herewith. The Sequence Listing submitted herewith contains no new matter.

In view of the above, Applicants request respectfully that the objections made in the Notice be withdrawn.

AUTHORIZATION

The Commissioner is hereby authorized to charge any additional fees due or credit any overpayment to Deposit Account No. 19-5127, referencing 19124.0016.

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

*Filing Date Granted***Items Required To Avoid Abandonment:**

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The compact disc(s) submitted fail to comply with 37 CFR 1.52(e) in that they contain non-ASCII files. A new duplicate set of compact discs with only ASCII files is required. Any replacement compact disc submitted should be accompanied by a certification as required by 37 CFR 1.52(e) that each disc of a duplicate set is identical to the other disc of the set. If a directory of the disc could be printed, it is attached and non-ASCII files are marked on the directory listing.
- This application is objected to because it contains a data file on CD-ROM/CD-R, however, the transmittal letter does not list for each compact disc, the machine format, the operating system compatibility, a list of files contained on the compact disc including their names, sizes in bytes, and dates of creation, plus any other special information that is necessary to identify, maintain, and interpret the information on the compact disc as required by 37 CFR 1.52(e)(3). A statement listing the required information is required. Additionally, the disc(s) is not identified in the paper portion of the specification with a listing of all of the files contained on the disc. When portions of an application are contained on a compact disc, the paper portion of the specification must identify the compact disc(s) and list the files including name, file size, and creation date on each of the compact discs. See 37 CFR 1.52(e). Applicant(s) are required to amend the specification to identify each disc and the files contained on the disc including the file name, file size, and file creation date.
- This application does not contain a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). Applicant must provide such statement. If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000).
- A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 CFR 1.821(e). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice

published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing" and a statement that the content of the sequence listing information recorded in computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 CFR 1.821(e), 1.821(f), 1.821(g), 1.825(b), or 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 CFR 1.821(e) may be submitted in lieu of a new CRF.
